Mayor Easton said item #1 on the Special Work Session agenda is:

Discussion on the process and implementation of the Downtown Development Standards.

Presented by: Jared Cottle

Others that spoke: John Wesley, Beck Design

City Manager Jared Cottle stated that we have talked at some great length about putting some developmental standards together so we talked with Beck Design and we have John Wesley here from Beck to walk through their first design and I will turn it over to them with their presentation of what they have put together and get your feedback on this draft.

John Wesley from Beck Design stated that he wanted to thank council for giving them some of your time to look at the presentation of the draft for the Downtown Development, with the designs for this building and City Hall. John stated that these designs are basic on setting the tone for future developments with a general look for downtown.

John continued to show council a presentation with detail of the design and encouraged council to ask questions and give their feedback to the proposed project. John stated that the first thing they did was to work with Jared and his team to determine what the boundaries would be for the design standards would be applied. John continued with the slid presentation for council review and feedback.

Discussion continued on this item.

No action taken.

Adjournment was called at 5:45p.m.
